

Plymouth Public Schools
Accountability Report - 2018-2019 through 2020-2021

## Executive Summary 2019-2020

The 2018-2019 school year saw a number of successes. Student, staff and community safety continues to be a priority and the district took multiple steps to layer on additional measures. Safety reviews were conducted at each building by our School Resource Officer, a full week of police training was held at Eli Terry Middle School, and a prioritized list of additional needs for each building were identified. We continued our efforts to support and develop the emotional skills of our students and staff as well. Our teachers and building leaders developed "charters" that identified how they wanted to feel while at work. Furthermore, they learned how to identify their feelings and learned ways to regulate their feelings. The teaching staff also worked to increase their instructional capacity by participating in "Instructional Rounds" at each building as well as a number of school based training in areas such as Reader's Workshop, Math Workshop, NGSS, and others. We were also very successful this year with using a student database that helped our principals and teachers "drill" down into student data to identify specific needs for each student. We will continue to develop our expertise with this new program in the coming years. Overall we saw some progress as a district in terms of student attendance with $92 \%$ of our students K-12 being present on a consistent basis. It is our hopes to increase that percentage to 95\%. A number of new practices and procedures were emphasized at ETJMS over the past 2-3 years and we saw significant gain
for both math and ELA in the most recent (2019) SBAC scores. We were excited to see that our high school students are taking advantage of our Advanced Placement classes with close to $50 \%$ of the class of 2019 taking at least one AP class before they graduated, which is more than double than that of the class of 2018. Furthermore, our physical fitness scores continue to increase as well at all levels.

As we move forward we are excited about the future. We will continue to review safety procedures and protocols at all schools and will place additional focus on our crisis communication plan and reunification plan during the coming school year. We will continue to practice "tabletop" exercises to stress our systems and find additional improvements and we will "harden" our facilities with defensive bollards at each school and a double entry system for the high school. Our work on social emotional learning will now directly connect with our students as we ask them to consider how they and their peers want to feel at school and to be able to identify how they are feeling at a given point in time. We will identify a K-12 instructional framework at the outset of this school year and use it to improve practice with all teachers. We will also develop a Portrait of the Graduate, a process that will include members from throughout the community and result in a high level set of expectations that we have for the skills and knowledge that we want all students to possess when they graduate THS. Our successful workshop model will move to grade 8 for 2019-2020. We will also add two new courses to the high school: AP Computer Science and Fire Science. Our curriculum review cycle will allow us to focus on critical curriculum needs and our online curriculum platform will improve communication between educators.

Student Enrollment:

| October 1, 2017 |  |  |  | October 1, 2018 |  | October 1, 2019 |  |  |

| $\%$ of K-12 Students with Disabilities Requiring Special Services | $16.2 \%$ | $17.6 \%$ | $18.1 \%$ |
| $\%$ of Kindergarten students who attended Preschool | $80.6 \%$ | $89 \%$ | $92.7 \%$ |
| Number of Students Enrolled in Magnet Schools | 126 | 122 | 101 |
| Number of Out-Placed Special Needs Students | 17 | 23 | 10 |

## Primary Goals 2019-2020

## Goal \#1 - School Safety (BOE Goals 3,4,6)

Increase the safety of students, staff and community members physically, emotionally and electronically by layering additional best practices into our current system. We will continue with a number of initiatives that have improved safety including: district safety meetings; internal and external cameras; availability of schools for police training; and building safety reviews.

## Goal \#2 - Social Emotional Learning (BOE Goals 2, 3, 5, 6, 7)

In 2018-2019 we focused on staff awareness and fluency around social emotional learning constructs and techniques. In 2019-2020 we will continue to develop staff knowledge and skill in this area, but will now turn our attention to students as well. The ultimate goal is to graduate students having mastered skills in emotional intelligence.

## Goal \#3 - Developing Instructional Expertise (BOE Goals 1, 2, 3, 6, 7)

Instructional capacity is a critical element of the teaching and learning process. Certified staff shall constantly strive to improve on their instructional practices through individual and group strategies. Research consistently shows that the quality of the teacher has the greatest impact on student learning, therefore, as we increase instructional capacity our students will benefit most.

## Goal \#4 - Updating and Enhancing Curriculum (BOE Goals 1, 2, 3, 4, 5, 6, 7)

Curriculum is the "what" we teach our students. Curriculum needs constant updating given changes in the "real-world", revised standards from the State Department of Education, and making sure that our curriculum makes sense and is aligned. Given the small number of staff available to work on curriculum we must prioritize our work each year.
